Задание №2. Топик «Школьная жизнь». (Примерный ответ учащегося)

I am a pupil of the 5th form, I study at school number 163. I would like to tell you about our school life.

I go to school six days a week. Our classes start at 8 o'clock a. m. and last till 2 o'clock p.m. So we have 6 or 7 lessons a day. We study many different subjects: Russian, English, Literature, History, Geography, Biology, mathematics, Physical Education and computer sciences. Languages, Literature and History are my favourite subjects. I make good marks in these subjects. The school year is divided into four terms, called quarters. It begins on the 1st of September known as a Day of knowledge and finishes in May. Each quarter is followed by holidays. Every pupil has a diary where the teachers put down the marks, that pupil has earned at the class. During the classes pupils answer the teacher's questions, do some exercises, write sentences, count, read. The pupils are often called to the blackboard. After every lesson the teachers give us home assignment. At the next lesson the teachers check them up. To do good at school you should make home assignments regularly, be active at the lessons and spend at least two-three hours every day studying.

I like studying and I like my school.
